

June 18, 2020

To Whom it May Concern,

The Olympic Park Neighborhood Council granted a Neighborhood Purpose Grant of \$1,000 to EnrichLA to be used at Queen Anne Elementary School for the 2019-2020 school year. With the school year now ending, we wanted to share updates with you during these difficult times. The generous grant we received from Olympic Park NC helped us provide students with an educational, fun, and engaging Garden Ranger program at these three schools. It also allowed us to make repairs and improvements to our gardens as you will see below.

With the suspension of our program and closure of all our schools due to the Covid-19 pandemic, we dedicated our time to creating Learn - From - Home content for all our schools. This allowed us to keep students connected to the garden during this very difficult time. The content we created is available to all our schools as well as to the public. You can find them on our website or youtube page. Because we did not have access to our gardens for over a month, we will be dedicating our summer to getting them all back into shape for the fall semester.

The funding that we received from Olympic Park NC was crucial in the success of our program at these three schools. A breakdown of how funds were used can be found below:

Materials	Amount
Class Materials: including soil for experiments, poster boards, markers, notebooks, snacks etc.	\$250
Seedlings and Seeds: including basil, tomato, strawberries, assorted flowers and much more.	\$150
Fruits Trees for quad next to garden	\$160
Soil amendments: including soil, compost and organic fertilizers.	\$275
Replace and Recap old sprinkler heads in the garden area	\$75
Garden tools for students.	\$90
	TOTAL: \$1,000

We send our deepest gratitude to everyone at the Pico Union Neighborhood Council! We hope you are all staying safe and healthy.

Thank you from all of us at Enrich LA!

Sincerely,

Enrich LA Team

Queen Anne 2019 - 2020 Garden Program in Pictures

Students help with planting the garden beds.

Students learn about the importance of healthy soil!

Throughout the year, students enjoy the harvests from the garden and enjoy simple, healthy snacks.

The garden at the beginning of summer 2020.
